

Why this Initiative?

- ✓ Mankind is naturally blessed with capacity to learn a language
- ✓ One additional language we learn, many doors it opens for new opportunities, new relationships and higher level of self-respect
- ✓ Following 'Organic' Language Learning techniques, everyone can begin and progress on learning a language, regardless of their economic, educational or social background
- ✓ It is equally important to enhance the 'quality' of language we speak and use.
- ✓ Two important elements for success with language are: i- a good start and ii- persistence self-involvement on learner's part.

With full respect for every language, Bhasha International currently supports promotion of English language through this Initiative with help of volunteers and interns
